Professional Profile

Final-year BSc Mobile and Web Technologies graduate at Botswana Accountancy College with practical experience in mobile and development, software engineering, networking, telecommunications, and IT systems.

Experienced in developing system, mobile and web applications using React Native, Java, Kotlin, JavaScript, TypeScript, PHP, SQL, React, Next.js, and Firebase. Gained industry experience during an attachment at the Botswana Geoscience Institute (BGI), contributing to the development of the BoreHive mobile application.

Adaptable and motivated technology professional with interests across software development, mobile development, web development, full-stack development, IT support, networking, systems, cybersecurity, and emerging technologies. Willing to learn new technologies and adapt to different technical environments and roles.

TECHNICAL SKILLS

- **Programming Languages** - Java, JavaScript, Typescript, Kotlin, PHP, Python, SQL, HTML5 and CSS.
- **Mobile Development** - Android Development (Kotlin and Java), Cross-Platform Mobile Development (React Native and Expo) and Mobile UI/UX Development
- **Web Development** - React, Next.js, Vite, JavaScript, TypeScript, PHP, HTML, CSS and Responsive Web Design
- **Databases & Backend** - SQL, Firebase, Firestore, REST APIs, API Integration and Local Storage
- **Networking & Telecommunications** - Cisco Networking Fundamentals, Asterisk, VoIP, SIP, IP Networking, Network Troubleshooting, Firewall Configuration and Basic Linux Administration
- **Tools & Technologies** - Git, GitHub, Visual Studio Code, Postman, Figma, Canva and Expo Development Tools
- **Other Technical Skills** - UI/UX Design, Software Testing, Debugging, Technical Documentation, System Analysis, Problem Solving, Computer and IT & System Administration.

PROFESSIONAL EXPERIENCE

Botswana Geoscience Institute (BGI) - ICT / Software Development Industry Attachment and contributed to the development of BoreHive, a cross-platform mobile application providing access to borehole information in Botswana. Worked with React Native, Expo, TypeScript, REST APIs, Firebase and Maps, while gaining practical experience in software development, testing, debugging and deployment within a professional ICT environment.

SELECTED PROJECTS

- **BoreHive** - Cross-platform mobile application for searching and exploring Botswana borehole information using React Native, Expo, TypeScript, APIs, Firebase and Maps.
- **MADI Wallet** - Digital wallet application concept focused on Botswana Pula transactions using React Native, Expo, Firebase and TypeScript.
- **Digital Signature Web Application** - Electronic document signing web application developed using PHP, JavaScript, HTML, CSS and SQL.
- **Asterisk VoIP Telecommunications System** - VoIP telecommunications system implemented using Asterisk, SIP, Linux, networking and Zoiper, including extensions, voicemail, IVR, hunt groups and conferencing.

EDUCATION

Botswana Accountancy College - BSC in Mobile and Web Technologies

Relevant areas of study:

- Mobile Application Development
- Web Application Development
- Software Engineering
- Database Systems
- Computer Networking
- Telecommunications & VoIP
- Cybersecurity – Mobile and Web Security
- Information Systems

Lobatse Senior Secondary School - Studied Computer Studies as part of secondary education and Excelled in Computer Studies, developing an early interest in information and communication technology.

ACHIEVEMENTS & ACTIVITIES

- **National ICT Fair** — Participated in a national ICT fair focused on problem-solving using Microsoft Excel, achieving second position. The competition provided early experience in problem solving, technology, analytical thinking and practical computer applications.
- **Cisco Networking Coursework** - Completed coursework covering Cisco CCNA Introduction to Networks (CCNA 1) as part of networking studies.

NETWORKING & TELECOMMUNICATIONS EXPERIENCE

Gained academic and practical experience in Cisco networking, IP addressing, TCP/IP, network configuration and troubleshooting, SIP, VoIP and Asterisk PBX. Worked with Linux environments, firewall and port configuration, RTP and Zoiper softphone configuration, with additional exposure to client-server communication and basic cybersecurity concepts.

PROFESSIONAL STRENGTHS

Strong problem-solving, communication and teamwork skills, with the ability to learn quickly, troubleshoot technical issues, adapt to new technologies and work effectively across different technical environments. Detail-oriented, adaptable and committed to continuous learning and professional development.

LANGUAGES

English and Setswana
